A MATTER OF AFFECTIONS.

Shooting in Darktown Society at Webster Groves.

Van McKinney, a negro who lives near the Tuxedo Laundry, just outside the eastern limits of Webster Groves, was shot twice yesterday by Luiu Morris, another negro, whose affections are wrapped up in him. McKinney's wounds were dressed by Doctor Baker of Webster, and while painful, they are not dangerous.

The matter of affections is to blame for the trouble. Van was too free with his, Luiu thought, so she shot him. So far as Webster darkeys go, McKinney admits that Luiu is feathering his nest in more places than one, so he has a "Lizzle" at Cheitenham, and a "Rose" at Kirkwood, and even other "coal black ladies," so say his triends, distributed around the suburbs. Yesterday Luiu became apprised of Van's various entanglements and she remonstrated with him. Van attempted to convince her that some enemy of his had been deluding her, but she would not be convinced, and drew a revolver, saying that she would "teach" him. McKinney made himself scarce, but of the many bullets which buzzed after him one lodged in his shoulder and another in the calf of his leg.

NO PAY FOR CUBAN SOLDIERS. Municipalties Will Not Assume the Proposed Burden.

Havana, July 5.—At the first meeting of the municipality of Havana, held yesterday, it was proposed that steps be taken to ap-proach each municipality in the island re-garding the payment of soldlers of the Cu-

proach each manishancy in the Sanat paragraph of the payment of soldlers of the Cuban army.

A keen discussion ensued, the motion being well supported by many councilors. Senator Gener, however, opposed a strong resistance on the ground of the poverty of the municipality, and the irrelevancy of the matter to the municipality, claiming that it was a question that should be decided by the central Government, and succeeded in having the motion squashed.

It is probable that within the next month three regiments of United States Infantry—the First and Second and either the Fifth or Eighth—will leave Cuba. This will leave only two regiments of infantry in the island. A protest has been made by the agents of the passenger lines against the continuance of the tax upon every passenger landing, which the owners of the San Jose wharf collect. which the owners of the case recollect.

Heretofore 5 cents for each piece of bagnage has been taid by the passengers. Now
the companies are notified that they will be
charged. This step is taken on account of
the perpetual complaints of passengers.

The companies say they will not pay, declearing that it is an outrage that the admiralty wharf is not turned over to the
Customs Department as a passenger landing.

CHURCH DOORS ARE CLOSED. Former Bishop Villatte Excom municated by the Pope.

New York, July 5.—News has been received from Rome that the Pope has excommunicated J. Rene Villatte, at one time the head of the old Catholics in this country, whose submission to the Roman Church was announced about two years ago.

The Catholic authorities had refused to recognize Villatte's title to an archbishopric and there was a rupture that caused him to leave home and go to France.

The act for which Villatte has been excommunicated was the consecrating as Bishop of an Italian ex-president known as Don Miragila. Villatte is well known in the United States and is a Frenchman about 45 years old. First he was a Catholic, but withdrew from the caurch before he had finished his studies for the priesthood. He became an Episcopalian in the diocese of Fond du Lac, Wis., and it is said he wanted Rishop Grafton, the present head of diocese of Fond du Lac, to consecrate a Bishop, but this was not done.

STARTS ON WHEEL TO-MORROW Colonel Flory to Tour State on Rail-

road Velocipede. Joseph Piory, Republican candidate for Govarnor, will begin his much-talked of campaign on a railroad velocipede to-morrow morning. He will start in Carondelet, and put in his first two days along the river front of St. Louis. Then he will begin a tour of the State, and, if he, or his vehicle, does not break down, hopes to visit every railroad station in the State before the election.

On the first day he hopes to visit all the principal factories, and shops between the lower end of Carondelet and the foot of Olive street. The second day will be given up to personal visits to the men in the various North St. Louis factories lying on or near the Wabash tracks.

In the campaign, Mr Flory will also prosecute his business as Hallroad Commissioner; and expects to make an exhaustive report of the physical condition of all the lines in the State before the close of the year. He has traveled considerably on handcars and velocipedes during the term of his office as Railroad Commissioner, and expanded the heavy drain on his constitution that will come of propelling his machine so many milies.

A Printer Greatly Surprised.

"I never was so much surprised in my life," says Henry T. Crook, pressman of the Ashevile (N. C.) Gazette, "as I was with the results of using Chamberlain's Pain Baim. I centracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without benefit. One day, while looking over the Gazette, I noticed that Pain Baim was positively guaranteed to cure rheumatism, so bought a 25-cent bittle of it, and before using two-thirds of it my rheumatism had taken its flight and I have not had a rheumatic pain since." Pain Baim also cures sprains, deep scated and muscular pains.—Adv.
